Looking Into The Future:

Walk In Power will Open Half-Way House

Some exciting news on the forefront of our newsletter concerning our new idea of a Half-Way House. Walk In Power Ministries wants to open to the public it's very own Half-Way House. With today's struggling economy many people are not able to afford the price of a one bedroom apartment, and on top of that the cost of utilities. Here at our Half-Way House not only will we provide a comfortable bed at night, but we will take care of all the utilities for you. Central Heat and Air, Long Distance Phone Calling, Cable TV and High Speed Cable internet all for the low weekly price. We are still devoted on helping the struggling addict to become a functioning member of society again, but we also now are looking at new ways to serve the community with a high standard of living at a very low price.

They will also be bringing their professional skills and hard working ethics to the ministry. We also have DeborahAnn McCoy, Director of Public Relations, Marketing & Fundraising. DeborahAnn isn't new to the ministry staff. She has been absent the last year due to medical issues. But DeborahAnn is back with us, healthier and stronger than ever.
